

AMIR RAKHIMOV

Address	Kurokami 7-763, Chuo Ward, Kumamoto city, Japan
Email	amir.rakhimov.b@gmail.com
Citizenship	Kazakhstan
Personal website	amir-rakhimov.github.io
GitHub	github.com/amir-rakhimov

Education

2022 – 2027.9	PhD in Genetics, <i>Graduate Institute for Advanced Studies, SOKENDAI</i> . Supervisor: Prof. Masanori Arita.
2019 – 2022	BSc in Genomics, <i>The University of Bologna</i> (110/110 <i>cum laude</i>). Thesis title: “Linking melanoma with autoimmune diseases using disease map approaches.” Supervisors: Prof. Federico M. Giorgi and Prof. Olaf Wolkenhauer

Work experience

2022.3 – 2022.5	Internship trainee (Erasmus+), <i>The University of Rostock</i> . Project: Linking melanoma with autoimmune diseases using disease map approaches (Supervisor: Prof. Olaf Wolkenhauer). • Built disease maps in CellDesigner and deployed them on the MINERVA platform • Analysed microarray data in Bioconductor
2021.3 – 2021.6	Internship trainee, <i>The University of Bologna</i> . Supervisor: Prof. Federico M. Giorgi. • Helped to develop the experimental methodology. • Provided the software (R code). • Predicted COVID-19 disease incidence with the R Prophet package

Publications

- Di Giacomo, S, Mercatelli, D, Rakhimov, A and Giorgi, FM. Preliminary report on severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) Spike mutation T478K. J Med Virol. 2021; 93: 5638– 5643.

Posters and presentations

Poster presentations

- **Amir Rakhimov**, Masanori Arita, Yoshimi Kawamura, Kaori Oka, Kyoko Miura, Noriko Yasuda, Yoshifumi Baba and Hideo Baba. Metagenomic comparison of the long-living naked mole-rat (*Heterocephalus glaber*) across age (2024). Asia & Pacific Bioinformatics Joint Conference 2024, Naha, Japan.
- **Amir Rakhimov**, Masanori Arita, Yoshimi Kawamura, Kaori Oka, Kyoko Miura, Noriko Yasuda, Yoshifumi Baba and Hideo Baba. Cross-species gut microbiota analysis suggests a key role of sulphur-metabolising pathways for longevity in naked mole-rats (2023). GIW 2023 & ISCB-Asia VI Conference, Singapore.

Skills

Bioinformatics skills

- R/Bioconductor programming
- Bash scripting
- 16S rRNA gene sequencing and whole metagenome sequencing data analysis: QIIME2, Kraken2, MegaHIT
- Differential microbial abundance for metagenomic data (MaAsLin2)
- Graphing skills with ggplot2
- Git version control

Wet lab skills

- Transfection, RT-qPCR, cell culturing

Soft skills

- Multidisciplinary collaboration and teamwork
- Oral and written communication
- Critical thinking and problem solving
- Oral and poster presentation
- Managing experimental and computational projects
- Attention to detail

Awards and honours

2024	Hiroko Morishima Progress Award at the 34th Progress Presentation in the Genetics Program, SOKENDAI.
2022	University of Bologna merit award for deserving non-EU students enrolled in the academic year 2021/2022.

2022

Erasmus+ grant for thesis at the Department of Systems Biology and Bioinformatics, The University of Rostock.
